Cynthia,

I will send you a CD of the Phase 1 San Mateo Creek Basin Ground Water Report next week that includes all the figures and appendices. Too large to email the entire document to you. However, I have attached the text and a couple of figures. I have also attached the Uranium Activity Ratio paper that would be of interest to you.

I am also going to schedule the two calls we discussed the other day for next week. I am checking with Weston today. It looks like Monday or Tuesday at Noon may be best for the call with Weston. Hopefully, will set up in Outlook today.

Mark
